

ALL MEMBERS Covid-19 Policy

Please see policies below to assist with dealing with Covid-19, Health & Safety requirements.

Stage 1 (now): Only a few NZ cases who caught the virus overseas. Put in place situationally appropriate policies based on MoH advice. Mainly this is

- enabling good hygiene and cough etiquette. Strongly support washing hands often with soap for 20 seconds.
- Provide sanitiser in office and ideally move to disposable towels etc.
- Ask people to stay away if they or anyone close to them is ill and/or have travelled to infected countries in the last 14 days.

Our highest priority is the welfare of people within and connected to our community. We cannot emphasise enough that if you are unwell, please follow the Ministry of Health Current Guidelines.

<https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus>

Stage 2: Small number people infected in New Zealand from known overseas source and all well contained. Carry on with stage one but may insist everyone uses hand sanitisation on arrival at working venues or events.

We have sourced antibacterial surface spray and will be coating our surfaces. Small amounts of hand sanitiser and antibacterial spray are due to arrive. Please use soap if in doubt.

This is a difficult time facing the club, continued patronage and support is greatly appreciated.

We would like our Club to remain a safe place for members to continue to visit. Please be assured we are treating this seriously and monitoring the situation.
